Have you ever wondered...

- What courses you should take in high school?
- What courses you should take in college?
- What else you need to do to prepare for medical school?
- How do you apply to medical school?
- How long will it take to get a medical degree?
- How will you finance a medical education?
- How do you become a specialist? (surgeon, pediatrician etc.)
- How the route to becoming a physician in the U.S. differs from the route in other countries?
