Coming in 2014-2015... NEW National STEM League Challenges!

The Ten80 Student Racing Challenge is currently in the process of reorganizing into the Ten80 National STEM League. Beginning in 2014-2015, schools and competition teams will have four challenges in which to collaborate, create and compete: Racing, Rover, Energy, and Innovation. Schools/teams can select to participate in one or all four of these challenges. Each challenge will incorporate data-driven design, enterprise and community outreach.

**First in the World
Program Development
Federal Grant is Now
Available!**

CLICK HERE to learn more about the First in the World program development grant and application process. Priority will be given to underrepresented, under-prepared, and low-income students. Hurry, the grant deadline is June 30th!

Did you know...?

The Ten80 Student Racing Challenge is now the Ten80 National STEM League! Beginning in September 2014 the Student Racing Challenge will be one of three challenges available to National STEM League teams.

Visit our NEW Ten80 website:
www.Ten80Education.com

Please be on the lookout for our 2014-2015 Registration Form and plan to participate in our August coach webinar (see above). Many exciting changes are coming and we look forward to seeing you and your team in 2014-2015!

To learn more about the new National STEM League, please visit our NEW Ten80 website: www.Ten80Education.com or [CLICK HERE](#) to download an overview. We look forward to seeing you in 2014-2015!

ATTENTION: TEN80 MOODLE WEBSITE

The Ten80 Moodle website will be deactivated during the 2014 summer months to reorganize courses and add new curriculum and investigations for our new Rover, Energy, and Innovation Challenges. For teachers/directors who are administering summer camps, you will still have access to your Student Racing Challenge summer camp courses.

In order to regain access to the new and updated Ten80 National STEM League Moodle courses, Ten80 must receive a 2014-2015 Registration Form. **A form will be issued during the week of June 2nd-June 6th for you to indicate your involvement in the 2014-2015 National STEM League.** You will be provided with access to the Ten80 Moodle once we receive your completed form and Moodle updates are complete.

Questions? Need Assistance?

Please read the following information for Ten80 support:

For questions regarding teacher training or curriculum implementation, please contact M.E. Farmer, Program Coordinator, at mefarmer@ten80education.com.

If you have trouble logging into the Ten80 Moodle or competition website, please contact Heather Sweet, Ten80 Administrative Coordinator, at hsweet@ten80education.com.

For questions regarding the **National STEM Competition League**, submitted assignments, or competition events please call 1-855-836-8033 and leave a voicemail for the Sanctioning Body at ext. 3. **Please also refer to your National STEM League Handbook AND National STEM Competition League course via the Ten80 Moodle before calling the Sanctioning Body.**
